Dear Ron,

Enclosed are late progress reports for 1979. New maps and updates are being prepared for 1980 and should be sent to you in a more timely manner.

I am sorry for the delay. If you have further questions, please don't hesitate to call.

Sincerely,

Kent Dahlquist

KD/lem

HECLA SHAFT

1979 Progress Report

Site preparation and construction started in early 1979 with main buildings and headframe completed by August. Shaft sinking operations then started in December with approximately 6500 tons of waste removed and placed in the abandoned gravel pit to the west of the shaft. Construction and shaft sinking will be completed in 1980. Attached is a plot plan showing the surface layout.
